

THE OPTIMAL
WORKSPACE FOR
HOSPITALS &
PRACTICES

RS5

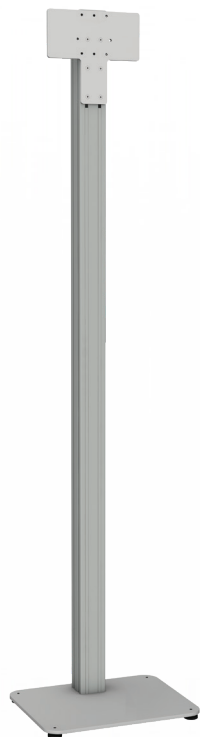

ABOUT THE RS5

The RS5 refraction unit combines safe functional procedures and individual height adjustment with modern design and well-engineered workplace ergonomics.

High-quality and easy-to-clean surfaces create optimal hygiene conditions and form the basis for your examination station.

ADJUSTABLE LCD COLUMN

Freely position the LCD monitor stand in two different heights for direct or indirect refraction

INTELLIGENT CABLE ROUTING

The cable management solution takes on complex tasks smoothly and reliably

OPERATOR'S CONTROL PANEL

Workplace ergonomics start with operation: intelligent and reliable

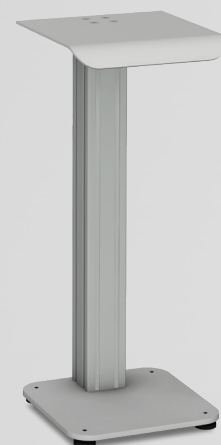

ROLLABLE STORAGE UNIT OR DESK END

High quality organization system for your workplace

EXCLUSIVE SEAT SHELL

Exclusive upholstery options in a variety of faux leather and color variations - durable and suitable for medical use

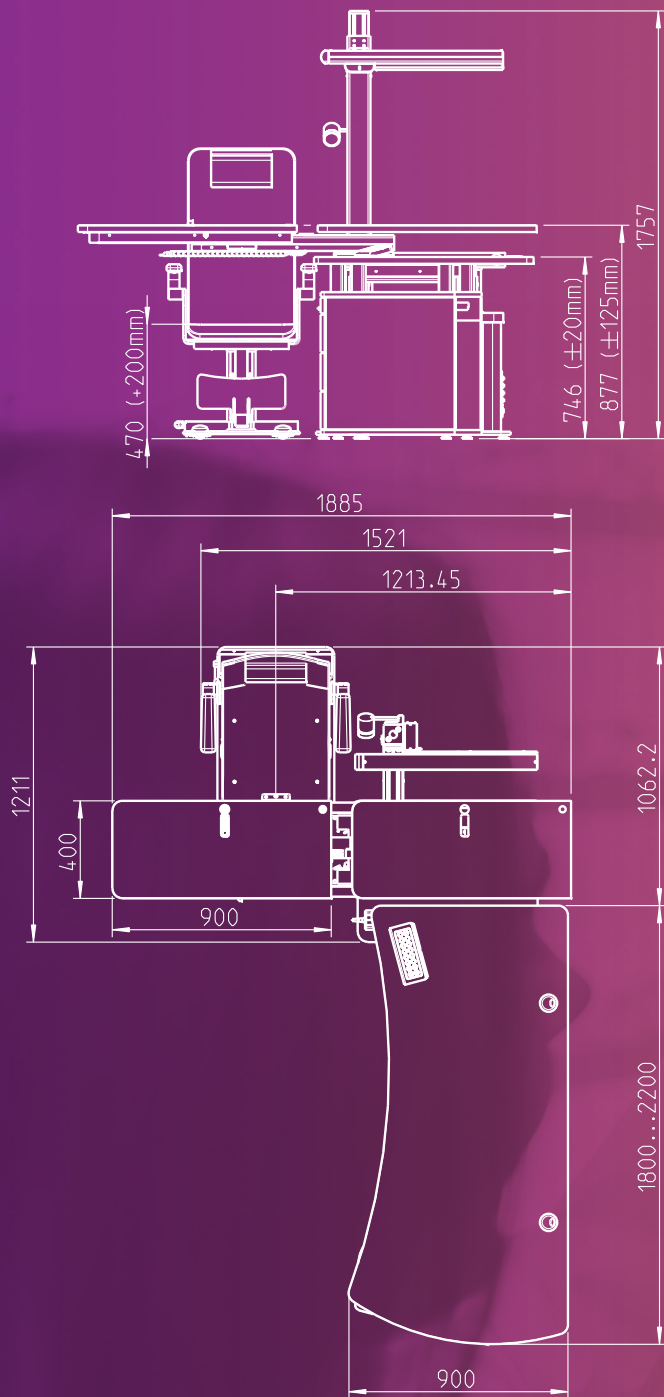

MOUNTING BASE FOR PHOROPTER OPERATING UNIT

Pillar with integrated cable guide to accommodate the phoropter control module with integrated cable guide

ROLLABLE STORAGE UNIT FOR MEASURING GLASSES

Individual furniture for your refraction glasses - high quality metal finish
